

Pricing for spa services does not include the cost of entry to the mineral springs. Please check our website for seasonal spa specials and packages.

Scheduling Spa Services

We recommend scheduling spa services prior to arrival to ensure desired times and treatments. Please arrive a minimum of 30 minutes to 1 hour prior to your scheduled appointment to allow time for check-in, and to shower, relax and soak before your treatment. The warm temperatures and quiet time will prepare you for your bodywork. Late arrivals will result in a shortened spa experience, as your treatment will conclude at the scheduled time. Reservations for spa services must be guaranteed with a credit card.

Cancellations

Cancellations of spa appointments must be made twenty-four hours in advance of the appointment - during business hours - or the guest's credit card will be charged for the full cost of the treatment(s). We also require that cancellations are made by speaking with an Ojo Caliente Mineral Springs staff member and not left on voice mail. Twenty-four-hour notice is necessary for any changes or moves to appointments.

Gratuities

Gratuities are not included in the price of treatments and are gratefully received to acknowledge good service. The typical range is 18-20% of the price of the treatment(s) and may be made in cash or charged to credit cards.

Robes, Lockers and Towels

All guests who purchase a spa treatment (*with the exception of a Milagro Wrap and Private Tub*) will receive a complimentary robe, locker, towel and the use of Ojo Signature body and hair care amenities to use during your stay (a \$15 value). Please keep valuables locked in your room, locker or vehicle. Locks are available for purchase at the front desk. Lockers are emptied each night.

Disclaimer

Hot water and sudden temperature changes can be stressful to your body. If you are pregnant or have chronic health problems, please consult your healthcare professional before your visit. The consumption of alcoholic beverages may impair judgment and/or cause loss of consciousness and is strongly discouraged. Natural mineral water may discolor some jewelry. Natural clay and mud may stain some fabrics. We encourage you to drink plenty of water to remain hydrated.
